

AMINOSEPT 10

.....

Slightly alkaline hygienizing formulation for surfaces and equipment

.....

→ DESCRIPTION

Aminosept 10 is a slightly alkaline liquid hygienizer, with a wide spectrum activity, to be used on surfaces as final treatment at the end of cleaning operations in food, pharmaceutical, cosmetic industries and in the zoo-technical field.

The hygienizing activity of **Aminosept 10** is based on the presence of biocidal amines and of wetting and detaching agents in the formulation.

Aminosept 10 has a good action also at low temperatures therefore it is the ideal product for Food Industry and related transport structures.

Aminosept 10 is also suitable for washing operations.

→ TECHNICAL CHARACTERISTICS

Physical appearance: colourless clear liquid

pH: $10,5 \pm 0,5$

Relative density at 20°C: $1,022 \pm 0,05$

Odour/Colour: absent

Shelf life of concentrated: 2 years

The above indicated chemical-physical data represent the typical product's characteristics drawn from the analysis carried out on the product. These values are not a specification.

→ INSTRUCTIONS FOR USE*

Use **Aminosept 10** at variable concentrations between 0,5 and 2% depending on the kind and degree of the present contamination. It is suggested to use solutions prepared at the moment of using them, at room temperature, keeping them in contact with surfaces from 5 to 30 minutes. Final rinsing with drinking water until any possible residue is completely eliminated. The formulation must not come into direct or indirect contact with foodstuff.

→ FIELDS OF APPLICATION

Hygienization through aspersion of rooms, equipment and plants. Treatment of tools even by immersion. The application must be limited to professionals suitably trained about the associated risks and the use of any necessary personal protective equipment. Hygienization of draining raceways and containers for waste material.

AMINOSEPT 10

→ COMPATIBILITY OF THE FORMULATION

Aminosept 10 is compatible with most material normally present in food industries, if used according to the producer's indications. In case of doubt, carry out a test on the single material before using the product.

→ PRECAUTIONS FOR HANDLING AND STORAGE

Store in original containers, away from extreme temperatures. Consult the Material Safety Data Sheet.

→ PACKAGING

10 kg net drums.

*The indications have been established for general use conditions. For conditions differing from the norm, for example depending on the particular water hardness, the working method or cleaning problems, please consult us; our technical service will be pleased to advise you and to cooperate with you.
