

OUR PARTNERSHIPS

Country	Institute	Research area
ITALY	CNR	- Technical characterization of enzymatic preparations - Experimentation on filter aids for olive oil
	University of Bari Aldo Moro	Oenological biotechnologies
	University Federico II (Napoli)	Wood derivatives
	Agrarian GESAAF School (University of Florence)	Lees refinement with enzyme addition (<i>élevage sur lies</i>)
	University of Torino	- Micro-oxygenation and experimentation on enzymes for color fixing - Tannin characterization - Polyphenolic compounds: extraction and stabilization - Aromatic compound extraction from wood - Study of enzymatic preparation for polyphenolic extraction
	University of Verona	Interaction of yeasts and bacteria
	Scientific and Technological Park of Sicily (Caltanissetta)	Yeast selection
	University of Modena and Reggio Emilia (UNIMORE)	Natural yeast selection and hybridization
	Catholic University of the Sacred Heart (Piacenza)	<i>Lactobacillus plantarum</i>
	University of Florence	Non-<i>Saccharomyces cerevisiae</i> strains
FRANCE	INRA Versailles-Grignon	Hybridization, strain archive and yeast molecular control
	ENSBANA (Agrosup Dijon)	Production of glucanase and pectinase
	INRA (Dijon)	Selection of new enzymatic activities
	Bureau national interprofessionnel du Cognac	Yeasts for the Cognac fermentation
	Centre du Rosé	- New yeasts testing - Control of oxygenation during the <i>élevage</i> of rosé wines with Microsafe equipment

	ENSIACET (Toulouse)	Wine contamination (<i>Brettanomyces</i>)
	Université de Montpellier	- Enzymatic and aromatic assays - Yeast derivatives
	Chambre d'Agriculture de Gironde	Controls on yeasts, enzymes and nutrients
	Institut Francais de la Vigne et du Vin (Nantes e Bordeaux)	- Vinification trials - Improvement and new yeast strains - Genetic bank
	INRA - Centre Rennes	Enzymatic controls
	Université de Bourgogne Franche-Comté Institut Universitaire de la Vigne et du Vin (IUVV) Jules Guyot	- Alcoholic fermentation - Trials on bioprotection - Improvement of bioprotection yeast
	University of Reims Champagne-Ardenne	Selection of yeasts and enzymes
AUSTRALIA	The Australian Wine Research Institute (Urrbrae)	Experimentation on filter aids for olive oil
	The University of Adelaide	Experimentation on yeasts, enzymes and amino acids for the production of aromas
BELGIUM	Université Catholique de Louvain	Antioxidants
