

LESS TIME
REQUIRED FOR
INDUSTRIAL
SANITISATION

EFFICIENT
DISPENSING OF
FOAM DETERGENTS

VERSATILE APPLICATION OF DIFFERENT PRODUCTS

EASY HANDLING THANKS TO THE TROLLEY WITH SELF-LUBRICATING CASTER WHEELS

## OUR EQUIPMENT GUARANTEES MAXIMUM CLEANING EXPERIENCE

Multifoam Inox is designed by **AEB ENGINEERING**, the division specialised in the production of systems and equipment which, thanks to its know-how and 100% in-house and on-site production experience, quarantees the highest quality and reliability of AEB technology. **AEB ENGINEERING** is unique in that it provides constant support by our technicians, both during installation and in the after-sales stage. For an unparalleled service that is flexible and tailored to the customer needs.

**Multifoam Inox** is a **foaming nebuliser** designed for multiple washing applications in any industrial setting. It allows to **optimise each washing procedures** in **complying with high hygienic standards** in production areas.

**Multifoam Inox** allows customers to minimise the costs and time required for industrial-grade sanitisation, thanks to dosing nozzles and wands that facilitate the effective distribution of products.

It can be used to:

- clean with foam detergents (for example, Sanifoam and Celofoam);
- nebulise with traditional detergents, such as
   Domal alkaline liquid detergent;
- perform environmental sanitisation by spraying sanitisers with a broad spectrum of action, such as Percisan SF.

## THE AVAILABLE MULTIFOAM INOX **PRODUCTS ARE:**

MODEL	TECHNICAL FEATURES
MULTIFOAM INOX L24  Multipurpose foaming nebuliser for use on 18/8 AISI 304 stainless steel only at low pressure, equipped with a 24 litre tank.	<ul> <li>24 litre tank usable up to a pressure of 8 bar (can be loaded with normal compressors)</li> <li>70 cm wand consisting of: 5 meter PVC hose, 2 foam nozzles and 1 nebuliser nozzle</li> <li>Self-lubricating caster wheels</li> <li>Direct-discharge safety valve</li> <li>0-12 bar pressure gauge</li> <li>Level indicator</li> <li>The stainless steel structure avoids problems resulting from the corrosion of the iron tanks, and is resistant to particularly aggressive chemical products*.</li> </ul>
MULTIFOAM INOX L50  Multipurpose foaming nebuliser for use on 18/8 AISI 304 stainless steel only at low pressure, equipped with a 50 litre tank.	<ul> <li>50 litre tank usable up to a pressure of 8 bar (can be loaded with normal compressors)</li> <li>70 cm wand consisting of: 10 meter PVC hose, 2 foam nozzles and 1 nebuliser nozzle</li> <li>Self-lubricating caster wheels</li> <li>Direct-discharge safety valve</li> <li>0-12 bar pressure gauge</li> <li>Level indicator</li> <li>The stainless steel structure avoids problems resulting from the corrosion of the iron tanks, and is resistant to particularly aggressive chemical products*.</li> </ul>

<sup>\* 300</sup> series stainless steel (304-316) is not suitable for treatment with chlorine-based products; therefore, we do not recommend placing liquids containing chlorine in the tank.

## RECOMMENDED PRODUCTS

Multifoam Inox can be used to dispense a wide range of AEB foam detergents, traditional detergents, sanitisers and sanitising detergents.
