- Codex Oenologique International.
  - Reg. EU 2019/934 and subsequent amendments and additions concerning categories of wine products, oenological practices and related restrictions.
  - Reg. EC 1333/2008 and subsequent amendments and additions related to food additives.
  - Reg. EU 231/2012 concerning specifications of food additives.
  - Reg. EC 1881/2006 concerning the maximum levels of some contaminants in food products.
- Where applicable, they comply with:
- Reg. EC 1332/2008 and subsequent amendments and additions related to food enzymes.

**Product ID:** ARABINOL HI FLOW

**Specification:** Solution of Gum arabic

EN\_5201021

| Parameter  | u.m.      | Range                                     |
|--|-----------|---|
| Physical appearance                                    | sensory   | Light yellow slightly viscous liquid      |
| Bulk density   | g/ml      | 1,1 - 1,2                                 |
| Optical density - 420 nm                               | Abs       | < 0,2                                     |
| Sulfur dioxide at packaging                            | %         | 0,3 - 0,5                                 |
| Heavy Metals (as lead)                                 | mg/kg     | < 20                                      |
| Pathogens (as salmonella spp)                          | cfu/25 g  | Absence of growth                         |
| Purity of raw materials (Codex Oenologique, additives) | Statement | conform with current regulation           |
| Allergens*   | Statement | Contains sulphites                        |
| Biological   | Statement | Compatible according to Reg. UE 2019/2164 |
| GMO  | Statement | Free (Reg. CE 1829/2003 and 1830/2003)    |
| Ionizing radiations                                    | Statement | conform with the directive 1999/2/CE      |
| Vegan  | Statement | Unsuitable                                |

\*In case of presence of fish gelatin and isinglass: these components are exempt from the obligation of labeling, for the clarification of wine and beer

The specification parameters are stated per lot or sample, considering the analytical data and the literature of the materials used, as part of the control system in place to maintain compliance with defined intervals.

The above data represent the result of our quality assessment. All values come up to the average of every lot.

They do not free the purchaser from his own quality check nor do they confirm that the product has certain properties or is suitable for a specific application.
